

In 2015-2016 we are using the Sports Premium Funding to:

- Ensure the continuing employment of two experienced Sports Coaches for 1½ days a week. (This employment cost the school £26 000 in the 2015-2016 financial year . The Sports Premium Funding was £9 695.) These coaches provide specialist input for children in Nursery to Year Six for an hour each week.

We are focused on providing a really inclusive PE curriculum, offering a wide (and changing) range of sports for the children to participate in, helping children to understand the importance of an active lifestyle (and associated health benefits) and increasing overall participation in borough wide events. Children learn a range of traditional team sports such as hockey and basketball. We monitor and track the aerobic fitness levels of our children through regular activities such as the Bleep Test to assess multi-stage fitness.

Every year we enter teams (Girls, Boys and Mixed Teams depending on the competition) into Camden's Y3/4 and Y5/6 football tournaments, Y5/6 rounders tournament, Y5/6 cricket tournament, Y4 tennis tournament, Y5/6 tag rugby tournament . We hold two Sports Day at Parliament Hill during the Summer Term and take part in the annual Camden Swimming Gala, Indoor and Outdoor Athletics tournaments and Cross Country. We always finish in the top third of events and our most able children are given a chance to shine. Last year several children represented Camden in cross country, football, gymnastics, hockey and swimming as did the school tennis team. We also have training and compete in an inclusive cricket tournament at Lords each year.

The impact of this funding, both from the school initially and then combined with the government funding more recently, has been:

- Specialist input for all children from Nursery to Year Six each week.
- Continued success in local authority sporting competitions.
- This provision predated the Sports Premium Funding so has enabled the school to target other areas.
